Questions papers for Civil Services Examination by generally set and evaluated by senior professors of the respective discipline. At Dialectics IAS, civil services aspirants with Sociology optional **get a chance to interact directly with senior professors** for effective feedback. We believe in **encouraging original thinking** among candidates and, therefore, we don't believe in providing standard model answers to each and every question. At an examination of UPSC level, such standard

model answers may do more harm than good to the candidates. However, each question is discussed in detail and special emphasis is laid on the **Line of Argument** in the answer. UPSC looks for **originality**, **spontaneity** and **creativity**. Our test series is aimed just for that. However, to guide candidates, some model answers would be shared from time to time. We aim to highlight and encourage **individual differences** among candidates, not level them.
